LIVE IS BACK!!! Originally known for her shows to backing tracks, in the last few years Nicki has progressed, and now offers her superb live band for her performances – all complete professionals, who still work with other top names in the music industry. Below are details of the different shows you can book Nicki for

LIVE SHOW

Supported by her superb live band and singers, this lively choreographed set has something for everyone to enjoy. The songs performed are a mix of Nicki's own chart hits along with a selection of some of her favourite well-known pop numbers from the last 30 years.

This show is perfect for corporate clients who want a vibrant, fun show to watch – or, for the more energetic partygoers, to dance to!

PARTY BAND

Sometimes the client requires a band to play through the evening for dancing – which is why Nicki now offers the option of enjoying her band and singers for longer. All the music is live – no sampled or backing tracks here! The repertoire is vast, covering many songs and styles from the 1960s through to the present day. Nicki shares the lead and backing vocals with two other highly-talented singers throughout the evening. Anything from a six-piece to a ten-piece orchestra (or more) can be provided. All the client has to do is pay them, feed them – and DANCE!

Recent (and very happy) clients have included: BT, Camelot, Mobil Oil, Ford, Glaxo SmithKline, Microsoft, Marks & Spencer plc, Lloyds TSB, to name but a few. Engagements abroad include: Abu Dhabi (for the British Ambassador), Dubai, Prague, Vienna, Stockholm, SE Asia (for the Sultan of Ipoh), Germany, USA.

FULL PLAYBACK

Nicki is well-known for commanding a stage on her own, entertaining audiences to playback, and on this show performs for anything from twenty minutes upwards with a broad range of backing tracks, mainly but not all dance/party orientated. The show encompasses her smash hit song 'Total Eclipse of the Heart' and the Eurovision success 'Don't Play That Song Again', as well as a selection of covers.
